Hiring Manager

Wizard Software & Technology Bangladesh Ltd.

Level-9, F Haque Tower

Bir Uttam C R Datta Road, Dhaka - 1205

Dear Hiring Manager,

I am writing to express my interest in the Junior PHP-Laravel Developer position at Wizard Software & Technology Bangladesh Ltd. With a strong passion for web development and a foundation in PHP and Laravel, I am eager to contribute to your dynamic and talented team.

I have completed my Bachelor's degree in Computer Science and Telecommunication Engineering from Noakhali Science and Technology University (NSTU), and during my academic journey, I have actively developed multiple web applications using PHP, Laravel, MySQL, Bootstrap, and JavaScript. My recent project was an Electronics Shop Management System, where I handled both the backend and frontend using Bootstrap, and PHP gaining hands-on experience in CRUD operations

I am particularly drawn to Wizard Software & Technology's emphasis on mentorship and career growth. As a junior developer, I am eager to learn from experienced team members, participate in code reviews, and stay updated with evolving Laravel practices. I thrive in collaborative environments and am committed to writing clean, maintainable code.

I believe my enthusiasm for PHP, combined with my academic background and self-driven projects, make me a great fit for your team. I am excited about the opportunity to grow with your company and contribute to meaningful projects.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your team in an interview.

Sincerely,

Aminul Islam
